

Old Train

John Denver

1. Old train I can hear your whistle blow
And I won't be jumpin' on again
Old train I've been everywhere you go
And I know what lies beyond each bend

(Chorus)

Old train each time you pass
You're older than the last
And it seems I'm too old for running
I hear your rusty wheels
Today against the rails
They cry with every mile
I think I'll stay away (a while)

Chorus:

2. Old train I grow weary at the miles
And I miss the freedom that was mine
Old train just to think about those times
I'll smile when your hot-ball'en by (you had ball'en by)

Chorus:
